

— GETTING SCHOOLED ON —
IAQ IN THE

CLASSROOM

50% of schools in the U.S. have problems linked to deficient or **failing IAQ**

101% **higher cognitive scores** in green buildings with **double the ventilation** **101%**

LOW-IAQ CLASSROOMS

HIGH-IAQ CLASSROOMS

-  Deficient IAQ due to dampness and mold can **INCREASE ASTHMA RISK BY 50%**
-  **TEST SCORES CAN DROP BY 21%** with increased CO₂ and other indoor air contaminants
-  Schools with deficient IAQ have a **LOWER AVERAGE STUDENT ATTENDANCE RATE**

- Cleaner indoor air **PROMOTES BETTER HEALTH**  for students and teachers alike
- Implementing IAQ management can **BOOST TEST SCORES BY OVER 15%** 
- Greater ventilation can **REDUCE ABSENTEEISM**  by 10 absences per 1,000 students
