# SUSTAINABLE IAQ FOR OVER 30 YEARS

## A PIONEER AND A LEADER IN SUSTAINABLE IAQ

Co-founders Doug Steege and Chuck Gates had a **VISION**: Support the planet by creating a company focused on **REDUCING THE IMPACT OF ENERGY CONSUMPTION** in all homes and buildings worldwide, thus safeguarding the environment, **ENHANCING INDOOR AIR QUALITY (IAQ)** and improving health and wellness.

Company is formed centering on renewable-energy generation, focusing first on solar thermal systems and expanding into solar electric and wind electric generation systems.

1983

Our first commercially available, static-plate, enthalpy-exchange Energy Recovery Ventilator (ERV) is manufactured in North America to further reduce energy consumption and enhance IAQ.

Home Ventilating Institute (HVI) certifies a RenewAire residential ERV for superior heat and humidity transfer.

2007

New RenewAire plant is certified for ENERGY STAR, LEED and Green Globes programs, and is 100% wind-powered.
